

## RE-ENTERING AFTER ABSENCE FORM

Students who have been absent from studies at NSCAD University for more than 3 semesters should request information on any new programs or degree requirements that have been instituted during their absence. Please note that a number of programs offer courses in a sequential manner and students should seek academic advising from the Office of Student Experience concerning the best options for their re-entry to certain programs.

Students are also responsible for updating their personal information, such as local and permanent contact information, email addresses, and phone numbers.
